Forecast for Wednesday 27 Jul 2022

Weather: A cool start with Snowdonia under mostly clear skies. Cloud bubbling up during the course of the morning and early afternoon, perhaps with a risk of an isolated light shower. High and medium level cloud increasing from the west late in the afternoon leading to a hazy end to the day. Possibility of showers developing later this evening and overnight.

Chance of cloud-free hill tops above 800m: 100%

Low Cloud and visibility: Excellent visibilities throughout the day with only temporary reductions in any showers. Cloud bases well above the level of summits throughout the day.

Freezing Level*	1900m	1900m	2100m	2200m	2200m	2200m	2300m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Dry and fine, with strong sunshine and high UV levels, sun protection will be needed if spending time on the mountains.

Forecast for Thursday 28 Jul 2022

Weather: Cloudy overnight into Thursday, perhaps with some showers developing, these mostly light but some heavier bursts are possible. Remaining cloudy throughout the day with a continued risk of showers. The risk of showers diminishes into the evening.

Maximum wind: Variable winds 10-15 mph with isolated gusts to 25 mph.

Chance of cloud-free hill tops above 800m: 70%

Low Cloud and visibility: Cloud bases mostly above the level of summits throughout the day, however bases dropping towards 800-900m limiting visibilities on some mountains at times. Good to excellent visibilities below the level of cloud with distant hills visible throughout the day, however temporary reductions in any showers.

Temperature: **Valleys:** Plus 6 Celsius becoming plus 20 Celsius.
At 800m: Plus 4 Celsius becoming plus 12 Celsius.
Freezing level: Well above the summits.
